

Dear Mrs. Parker,

My name is Peter Jones. I was born in xxx hospital, New Jersey on 14th May 1985 and I believe you were the mother who gave me up for adoption. I got your contact details from the adoption center.

I was adopted by Jack and Mary Jones. I completed my schooling from xxx school, New Jersey and I graduated from xxx college. I live in Washington and work with a Multi-National company. I am married and I have two lovely kids.

My adopted parents have provided me with a very happy childhood. I grew up in a warm and loving environment. My parents tell me that I was a naughty and mischievous kid. There are many funny anecdotes that my momma narrates to me. I loved painting since childhood and I still follow that passion. If we ever meet, I would love to show you some of my artworks. This is a bit about my personal life.

If you are my birth mother , I would like to be in touch with you and would love to meet you eventually. But of course, I will not contact you unless you agree. I want to know you and that would mean a lot to me. I also want to find answers to some questions I have had all my life. I am sharing my contact details and address. Hoping to hear from you soon.

Love,

Peter Jones.
