

Hello Dr.____

Greetings of the day!

I would like to thank you for being the best doctor. I am doing well thanks to you. It was a scary and lonely journey throughout, and you always managed to calm me down. I do not know how you do it daily, but I want you to keep being as strong as you are for all the scared patients like me. A doctor like you is a ray of hope. Thank you for always being patient with me.

Many thanks,

(your name)
