Hello <Name of the broker>,

*I am writing this to thank you for helping us with <mention the reason for taking the loan, like – for buying a home or renovating it, etc.>. We were demotivated by the high interest rates in the market. But you went through the trouble of finding us the perfect loan that we could afford. My family and I are grateful to your kindness and promise to return the principle amount with due interest.*

*You have made it possible to <write what the loan will be used for>. In appreciation of your skill and talent, I have recommended your name and shared your details with colleagues/friends/relatives. Hope you can help them the way you helped us.*

Warm Regards,
